Sl.No.	Name of the work	Amount (Rs. in Lakhs)
1	Widening and strengthening of Three Piller center to Noble road Junction Road from KM 0.00 to 3.00 & KM 4.000 to 5.100 in Krishna District. (Bypass Road In Machilipatnam Municipality)	1750.00
2	Widening and strengthening of Collector bungalow to Chilakalapudi Rly. Station Road from KM 0.746to 1.492 in Krishna District.	350.00

stating that, i) the Bypass road of Machilipatnam town starts from KM 63/2 of NH 65 (old NH 9 - Vijayawada- Machilipatnam) and ends at KM 85/780 of NH 216 . The work of extension of bypass road from Three Piller center @ Km 63/2 of NH 9 to Km 95/2 of NH 216 towards Challapalli is completed under plan work. After completion of the work the total heavy vechicular traffic on NH 216 is directed on the bypass road to avoid traffic jams in Machilipatnam town it is necessary to widen this stretch of road. ii) The Collector Bungalow to Chilakalapudi Railway station Road is an important M.D.R in Krishna District. The stretch from Km 0.746 to 1.492 is having carriage way width of 5.50M. This reach joins NH 216 and State Highway Machilipatnam Tallapalem. FCI Godowns are situated on the road in Km 0/10. The heavy loaded trucks pass on the road from railway station to FCI Godowns. Due to unusual heavy commercial traffic movement waiting for their turn for loading/unloading on this road, traffic interruptions are very common on the road. To overcome the traffic congestion in the town portion of the road, it is necessitated widening of the existing carriageway to 4 lanes to match the already widened portion of the NH and sanctioned work on Machilipatnam Tallapalem. iii) The Bandar R'Peta Square to port road is an important road in Machilipatnam town limits and the road starts from Km 65 of NH 65 (Koneru centre) and crosses NH 216 at Km 0.300. The total length of the road is 4.279 Kms. The Proposed stretch from Km 0.00 to 0.360 passes through the central business area of Machilipatnam town where number of Government offices are located on the road and connects the present anchorage port to the Machilipatnam town. The road from Km 0.360 to 1.250 was already widened to 4 Lane C.C Carriageway with central divider and side drains except

(PTO)

for a few pockets where widening could not be taken up due to delay in shifting of utilities. The present road from Km 0.00 to 0.360 being a part of commercial hub, the traffic intensity is so high that the traffic congestion and traffic jam is experienced for the peak hours and daily basis. Hence improvement of this stretch is necessary.
